

PATENT

Docket No.: 16356.765 (DC-03294A)

Customer No. 000027683

**METHOD AND SYSTEM FOR MONITORING STATUS IN A NETWORK
HAVING WIRELESS AND WIRED CONNECTIONS**

Abstract of Disclosure

In an information handling system that includes a connector for receiving a removable wireless device, an indicator is shared between the wireless device and a fixed network controller. The indicator is for indicating multiple non-zero communication speeds of the wireless device, and for indicating multiple non-zero communication speeds of the network controller.
